

CURRICULUM VITAE

I come from a background in website building and operations management where I was able to develop my organisational and development skills. However, I have always been interested in coding and I am now looking to establish a career in the industry. This interest has led me to recently graduate from a Coding Traineeship as a full stack developer including completing 2 real-world projects successfully to specification using a wide range of programming languages. I am a hardworking and loyal employee with excellent problem-solving skills and a drive to succeed. I am confident that I will make a valuable addition to your development team.

CODING TRAINEESHIP

IT Career Switch Ltd
Coding Traineeship – Full stack developer
1-year program

During the traineeship I had to demonstrate a very competent level of the following programming languages and technical skills

- HTML5, CSS3, JavaScript
- PHP, SQL, React, jQuery
- Python, Node.js, Bootstrap
- Command line Git, Github
- Remote API access

ADDITIONAL TECHNOLOGIES:

- Java, C#, Express.js, Redux, TDD, PostgreSQL, MySQL, MariaDB, GitBash, Restful APIs, AJAX, cURL, Apache, XAMPP, DevOps Fundamentals

DEVELOPMENT EXPERIENCE:

Below are the two briefs of development projects I completed with IT Career Switch which can be found in my bio: <https://stephanieworthington.co.uk/>

Portfolio Project #1: “Gazetteer”

The specification was to reply to a website specification for a map-based app to provide information on countries, with a focus on a “mobile-first” development. Preferably using a framework, to then develop HTML, CSS and JavaScript with JQuery modules that use PHP server-based components to source data from third-party APIs (Geonames, OpenWeather). The solution is assessed on its delivery to specification, functionality, and usability.

Portfolio Project #2: “Company Directory”

A more rigorous reply to this specification was required as a user requirements document was needed to be prepared which, when signed off, triggers the release of SQL allowing to develop a “mobile-first” application to maintain a company personnel database (MySQL). Sign off is only achieved upon the student supplying an independently witnessed document providing confirmation of the system’s ability to perform error-free.

CAREER HISTORY:

Jun 2016 – Present

POSITION HELD:

The Secret Bakery

Website & Operations Manager

- Designed and developed the business’s website, enabling seamless online ordering and enhancing the digital customer experience
- Managed and curated engaging social media content, increasing the online presence and brand visibility of the business to a wider audience
- Implemented rigorous quality control procedures to guarantee the excellence and accuracy of all food and drink offerings
- Played a pivotal role in training and mentoring staff, fostering a cooperative and efficient work environment while delegating tasks effectively

Feb 2017 – Jul 2020

POSITION HELD:

Stitch & Screen

Craft Workshop Provider and Teacher

- Co-founded and operated a successful craft workshop business, managing all aspects from concept to execution, demonstrating entrepreneurial initiative and project management skills
- Developed and delivered customised course content for over eight different craft techniques, showcasing creativity, adaptability, and the ability to design and structure engaging learning experiences
- Marketed workshops through social media and print media, displaying digital marketing and promotional skills that align with the web development strategies
- Instructed workshops for groups as large as 62 participants, showcasing effective communication and teaching skills

Nov 2012 – Mar 2018

POSITION HELD:

CUSHWORTH

Founder & Operator

- Founded and operated a thriving business, CUSHWORTH, specialising in handmade soft furnishings and lampshades and more
- Successfully managed online sales platforms and established partnerships and collaborations with e-commerce retailers, expanding product reach across various media
- Demonstrated adaptability and creative problem-solving skills when addressing various business challenges, from supply chain issues to customer enquiries
- Maintained a strong focus on detail-orientated product development
